FALLING FORWARDS

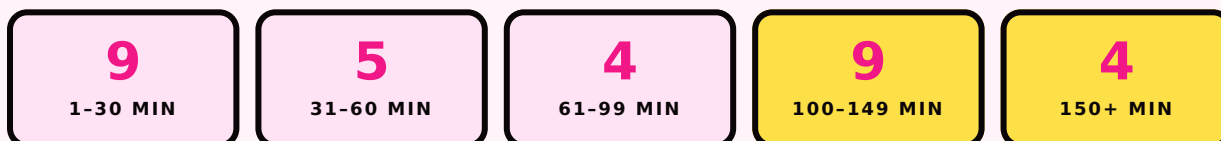

100 MINUTES

100 minutes a week is the promise. **2,827** is what you logged.

31 of you logged this week. If each of you had done 100 minutes, that's 3,100. You did 2,827, which is 273 short.

THE SPREAD

Where the 31 of you landed.

13 of you logged 100 minutes or more on your own. The yellow buckets are above the floor. The pink ones are below it.

33 of the 64 members didn't log at all. If you're one of those 33: open the tracker today and put in one rep. Five minutes. A DM you've been meaning to send.

A rep that didn't make it into the tracker doesn't count.

BY DAY

Mon is when **you showed up.**

DAY BY DAY

MON 18		49 reps	847 min
TUE 19		31 reps	405 min
WED 20		19 reps	539 min
THU 21		23 reps	216 min
FRI 22		28 reps	564 min
SAT 23		1 reps	1 min
SUN 24		4 reps	255 min

Mon took 30% of the week's minutes. Saturday and Sunday together took 9%. If you only logged on Mon, log a another day this week.

5 reps across the whole weekend. The other 150 happened Monday to Friday.

You spent the week on **warm people.**

THE FIVE RS

RETURN		36
REACH		45
RE-ENGAGE		43
RETAIN		17
REFER		14

Return and Reach got similar reps. They didn't make the same money. Return: 36 reps, 7 sales, **£5,246**. Reach: 45 reps, 1 sales, **£63**.

Reach reps don't close in 7 days. Cold outreach is doing what it should be doing.

REFER

14 asks. £0.

The 14 referral asks got 5 positive replies and 0 booked calls. Referrals close on a longer cycle than a week, so £0 is expected this round.

The number to look at is the 14 itself. 14 asks across 64 members. That's the gap.

WHAT WORKED

Upsell / cross sell.

3 of you did a upsell / cross sell this week. 2 got paid. £595 from 3 reps. Highest hit rate of the week (67%).

14 sales already on the board.

Positive reply	18
Sale made	14

79 of your reps are still "too soon to tell". That's expected after 7 days. Only 2 got no response and only 1 got a no.

18 came back as a positive reply. 14 turned into a sale. 5 booked a call. 6 need a follow-up.

EFFORT VS FEELING

How the work felt.

Normal	104
Sweet spot	47
Drain	4

104 reps were normal. 47 were a sweet spot. 4 were a drain. Look at the 4. That activity type or platform is the one to drop next week.

2 "no response" out of 155. You barely got told no.

THIS WEEK

Three things **this week.**

1

If you didn't log last week, log **one rep today.**

A DM. Five minutes. Open the tracker and put it in. 33 of the 64 members didn't log anything in the past week. The way to not be one of them this week is to log one thing today.

2

Make one **referral ask.**

14 went out across 64 of you last week. Pick one happy buyer from the last 90 days and ask who else they know. One sentence.

3

Repeat **upsell / cross sell once.**

It had a 67% hit rate this week. 2 of the 3 made got paid. Pick one person you can do this for and do it.

THE LINE TO HOLD

We don't wait for replies. **We press send.**

If a rep is sitting in your drafts, log that one first.
